

On the Subject of Complicated Buttons

1. Look at each button: there is one color and a label on the button. Purple represents both red and blue.

2. For each button, use the Venn diagram below to decide whether or not to press the button.

3. Press the buttons in the order listed in the table. If no buttons are pressed, press the second button in the list.

4. Upon getting a strike, the entire module resets.

Button has red coloring

Button has blue coloring

Button says "Press"

Button is in the middle position.
